TO FIND LENGTH OF DAY OR NIGHT.

At any time of the year add 12 hours to the time of the sun's setting, and from the sum subtract the time of rising for the length of the day. Subtract the time of setting from 12 hours, and to the remainder add the time of rising next morning for the length of the night. These rules are equally true for apparent time.

REPRESENTING RESPECTIVELY THE MONETARY UNITS AND  
STANDARD COINS OF FOREIGN COUNTRIES.

[[line]]

The first section of the Act of March 3, 1873 provides "that the value of Foreign Coin, as expressed in the money of account of the United States, shall be that of the pure metal of such coin of standard value," and that "the values of the standard coins in circulation of the various nations of the world shall be estimated annually by the Director of the Mint, and be proclaimed on the first day of January by the Secretary of the Treasury."

The estimates of values contained in the following table are those made by the Director of the Mint, January 1st, 1885, in compliance with the above stated provisions of law.

#### BUSINESS LAW IN DAILY USE.

[[line]]

The following compilation of business law contains the essence of a large amount of legal verbiage:

If a note is lost or stolen, it does not release the maker; he must pay it, if the consideration for which it was given and the amount can be proven.

Notes bear interest only when so stated.

Principals are responsible for the acts of their agents.

Each individual in a partnership is responsible for the whole amount of the debts of the firm, except in cases of special partnership.

Ignorance of the law excuses no one. [[strikethrough]] [[?]]  
[[/strikethrough]] ^[[checkmark]]

The law compels no one to do impossibilities. ^[[checkmark]]

An agreement without consideration is void.

A note made on Sunday is void.

Contracts made on Sunday cannot be enforced.

A note by a minor is void.

A contract made with a minor is void.

A contract made with a lunatic is void.

A note obtained by fraud, or from a person in a state of intoxication, cannot be collected.

It is a fraud to conceal a fraud.

Signatures made with a lead pencil are good in law. ^[[checkmark]]

A receipt for money is not always conclusive. ^[[checkmark]]

The acts of one partner bind all the rest.

"Value received," is usually written in a note, and should be, but is not necessary. If not written it is presumed by the law, or may be supplied by proof.

The maker of an "accommodation" bill or note (one for which he has received no consideration, having lent his name or credit for the accommodation of the holder) is not bound to the person accommodated, but is bound to all other parties, precisely as if there was a good consideration.

No consideration is sufficient in law if it be illegal in its nature.

Checks or drafts must be presented for payment without unreasonable delay.

Checks or drafts should be presented during business hours, but in this country, except in the case of banks, the time extends through the day and evening.

If the drawee of a check or draft has changed his residence, the holder must use due or reasonable diligence to find him.

If one who holds a check as payee or otherwise, transfers it to another, he has a right to insist that the check be presented that day, or, at farthest, on the day following.

A note indorsed in blank (the name of the indorser only written) is  
transferable by delivery, the same as if made payable to bearer.  
If the time of payment of a note is not inserted, it is held payable on  
demand.

Thur. SAT. JAN. 1, 1887 Wed.

Cloudy & cold

Entered settlement with John Rogers in ledge after hunting up spent most of day on this for children. Small tree in nursery. Mama, Papa, Aunt Helen, Collins, Mr. & Mrs. Roosevelt, Mr. & Mrs. de Camp, Mr. & Mrs. de C. Annie Muller & her father Mr. Elton C. Muller & Charlie, Fannie & Fred. John Rogers - family, Rudolf Clegg & John, with our 4 servants enjoyed the pretty sights. Rolling on compass with a compass.

Sun. SUNDAY 2 Wed.

Weather cold. So jogs the children by driving to the Falls. Very much interested again in people. Eyes are weak tell-tale things. Sad memory of happy days called back by the child joy of a glowing hearth fire; deep love in a heart beat and break a spit of it - remembrance of the hope of the here over life were not kept in spite of everything. The devotion of the human heart is a noble, the wonderful force of determined will - the brightness of the living heart & woman.

Bitterly cold. Flo froze her cheeks  
by driving to the Falls. Very much  
interested again in people. Eyes are

child joy of a glowing xmas tree;  
deep hope in a heart beat nd

The devotion of which the human heart
